

Band History

Originating in 2014, The Soul Projekt is a vision established by four musicians hailing from Ossining, New York, inspired to create a musical experience unlike others. Establishing a great repertoire of Adult Contemporary, Jazz and Funk music, The Soul Projekt have now expanded to six members, five living in Ossining, New York and one from Rockland County, New York. We have shared our performance near the Ossining community, receiving great audience reception and positive feedback.
